

Check our different programs

END USER COMPUTING — NQF LEVEL 3

Build practical digital skills for education, employment and everyday life. Learners develop computer literacy and workplace skills that can help them access opportunities in the digital economy.

SECURITY TRAINING — GRADE C, D & E

A vocational pathway for community members interested in entering the security sector. Training supports participants in developing sector-focused knowledge and workplace readiness.

WELDING TRAINING

Hands-on technical training designed to develop practical trade skills. Welding can create pathways towards employment, further training and potential small-business opportunities.

PLUMBING TRAINING

Practical skills for people interested in the plumbing and maintenance sector. The programme focuses on developing useful technical abilities that can be applied in employment or enterprise environments.

ADVICE & REFERRAL SERVICES

Connecting community members with information, opportunities and support. This includes assistance with employment searches, CV preparation, interview preparation, referrals and access to relevant services.

NUTRITION PROGRAMME

Siyanakekela / We Care Community Project believes that uplifting a community begins with meeting basic human needs. Through our Nutrition Programme, we create opportunities to share meals with community members who may be experiencing food insecurity and hardship. The programme operates across Siyanakekela and the Multi-Purpose Hall in Braamfischerville, bringing people together around something simple but powerful: a shared plate. This is more than providing food. It is about dignity, compassion, community and connection. A meal creates an opportunity to sit together, engage with one another and remind vulnerable community members that they are seen, valued and cared for.

Has to Offer!***

”

“Empowering youth to rise above adversity”

Our Mission & Values

To create stability and a bright future for youth stricken by poverty, empowering them through life skills and mentorship to succeed and lead tomorrow.

To provide strong leadership and positive role models for youth through programs focused on personal development, education, and career preparation, laying a solid foundation for lifelong success and community impact.

About Us

Founded in 2013, Siyanakekela/We Care Community Project is a non-profit organization committed to empowering the youth of Braamfischerville and surrounding areas. Our mission is to provide life skills, education, and opportunities that enable young people to break the cycle of poverty and become active contributors to the economy.

We work tirelessly to address the pressing challenges faced by our community, including poverty, unemployment, HIV/AIDS, and social neglect. Through partnerships with organizations such as The Department of Social Development and HIVSA, we offer a range of programs that focus on education, health, economic empowerment, and psycho-social support.

At Siyanakekela, we believe in the power of community and the importance of nurturing the potential within every individual. By offering vocational training, job creation projects, and other essential services, we strive to uplift the most vulnerable members of our society and build a foundation for long-term success and well-being.
